

“Festival” Film

Create a “festival” film

Shop the class website, bulletin board, or your own sources to find a student video festival for which you will create an entry. You must name your chosen festival before you begin filming your project and your finished video must fall within the guidelines (rules, etc) of that chosen festival. You may enter your video in more than one festival if you choose.

Fill out each checklist and turn in when that portion is completed!

Footage check due: _____

Project edit checklist due: _____

Portfolio checklist due: _____

Festivals you might try...
